

Celtico

Celtico is a top grain leather featuring a Celtic inspired embossing with a subtle crackle effect combined with a luxuriously soft, waxy hand. The leather is dyed through and placed in oak drums to enhance the crackle effect. Natural characteristics of nature add interest and beauty to this leather. Celtico is suitable for most residential, hospitality and contract applications.

REACH (EC 1907/2006) compliant production aims to improve the protection of human and environmental health. Processed using low emission mineral tanning formulas which are environmentally respectful, the hides are retanned in aged oak drums using vegetable agents, natural fat liquors, oils and dyes that ensure the leather is properly through dyed. Natural color variations may occur even within the same dye lot.
