

Concrete

Concrete is wild and natural leather with a vintage appearance. A manifesto of natural leather that is unrefined, naked and unapologetic on the surface. As it matures a patina will develop exhibiting the lifestyle and character of its owner.

REACH (EC 1907/2006) compliant production aims to improve the protection of human and environmental health. Processed using low emission mineral tanning formulas which are environmentally respectful, the hides are retanned in aged oak drums using vegetable agents, natural fat liquors, oils and dyes that ensure the leather is properly through dyed. Natural color variations may occur even within the same dye lot
