

TURIN — The DiGiorgi Collection

Turin is an elegant, full grain leather featuring a smooth and supple surface with even coloration throughout the entire hide. Crafted in Italy, Turin has an Old World feel in a contemporary neutral palette. A protective finish allows this classic leather to be used confidently in a wide variety of interior environments, public and private.

Turin is part of the **DiGiorgi Collection**, which features exceptional leathers inspired by the landscape and design culture of Italy.

REACH (EC 1907/2006) complaint production aims to improve the protection of human and environmental health. Processed using low emission mineral tanning formulas which are environmentally respectful, the hides are re-tanned in aged oak drums using vegetable agents, natural fat liquors, oils and dyes that ensure the leather is properly through dyed. Natural color variations may occur even within the same dye lot.
