

VENEZIA — The DiGiorgi Collection

Venezia is a luxurious leather inspired by Venetian artisans and crafted in Italy. A full grain aniline through dyed leather, Venezia is vacuum dried, which provides a firm and smooth hand, and undergoes a unique re-tanning process that enhances its natural beauty. The hides are soaked in large oak drums to ensure a superior quality grain, and a final, lite application of oils and waxes gives this leather its beautiful transparency and depth. Over time, Venezia develops a rich patina that reflects the lifestyle of its user.

Venezia is part of the **DiGiorgi Collection**, which features exceptional leathers inspired by the landscape and design culture of Italy.

REACH (EC 1907/2006) compliant production aims to improve the protection of human and environmental health. Processed using low emission mineral tanning formulas which are environmentally respectful, the hides are re-tanned in aged oak drums using vegetable agents, natural fat liquors, oils and dyes that ensure the leather is properly through dyed. Natural color variations may occur even within the same dye lot.
